

TRANSPORTATION NETWORK

Primary Roads with Traffic Volume* (Vehicles per day)

Minor Roads‡

Limited Access Highways

Freight Rail/Amtrak

Freight Rail

Non-motorized Trails

* Traffic volumes are estimated based on an average 24-hour period. Rush hour (peak period) traffic volume can be much greater than at other times of the day. Traffic volumes also vary by season and day of week.

‡ Minor roads generally have lower traffic volume but road width and surface type may make them less appropriate as a bike route. Consult local county road commissions for more information. www.micountyroads.org
