3. EXECUTIVE DIRECTOR'S REPORT

Deputy Director Marcy Hamilton presented the Executive Director's Report and opened the floor for questions and comments.

Doug Tyler asked for an update on the EV Readiness plan. Hamilton shared that we received funding from MDOT to hire a consultant, who will assess and make recommendations on where EV chargers will be best suited. Roseann Marchetti inquired about the timeline. Hamilton shared that we have hired a consultant and will take a year to complete the plan. More discussion ensued regarding the cost, funding, and need of chargers.

Teri-Sue Freehling discussed the committee selection and process of member approvals for Materials Management. She thinks further discussion is needed regarding how committee members are approved and a possible update in bylaws. Deputy Director Hamilton suggested a meeting with the executive committee to discuss this further when Director Egelhaaf is also present. Julie Wuerfel and others shared their concern of proper representation from each county. Dan Fette then shared his knowledge on the application process. Members discussed their want of equal representation and the possibility of applications being brought to the Board for review.

Description of program/project:

- Dowagiac has a wealth of beautiful natural resources. The City has strategically
 planned to enhance and improve accessibility to them in a multi-year plan one
 that's only possible to execute with the help of partner governmental agencies.
- Working with Michigan's Department of Natural Resources Trust Fund, the City of Dowagiac created Schuur Park and Burling Park to make them trailheads for a trail that would run across property owned by Dowagiac Elks Lodge #889, which is used as a country club with a 9-hole golf course. These efforts are collectively known as the Elks Trail System Project.
- The Elks Trail runs along Dowagiac Creek, which, due to some changes in river and creek systems in nearby communities, has become an even more desirable spot for fishing (specifically salmon) in recent years. The City saw an opportunity to design this project in a way that increased access to fishing opportunities, in addition to the hiking benefits the trail provides. It's also a diverse forested area and is ideal for those interested in bird watching and those who appreciate wildlife.

Goals and objectives of program:

- Increase access to Dowagiac Creek, including its fishing opportunities, which is an ongoing initiative for the City.
- Continue to improve the quality of life in Dowagiac by enhancing and providing sustainable access to natural features.
- Give residents and visitors an additional way to improve their health and wellness by walking the trail. Dowagiac is a community with a large population of underprivileged residents, a group that experiences higher-than-average levels of chronic diseases like diabetes, heart disease, and mental illness. The Elks Trail System Project was designed to provide individuals with additional opportunities to improve their physical and mental well-being right within their community. After completion, Elks Trail was included in the Summer 2024 Dowagiac Walking Challenge, which incentivized people to complete specific walks around the Dowagiac area to better get to know their city and improve their health.

Distinctive features:

- The Elks Trail System Project is one part of a City strategic plan. While the completion of this project was impressive in itself, the long-term plan is to expand efforts in a way that will connect the Elks Trail System Project to other trail systems in the area, particularly Rudolphi Woods, a 325-acre plot of high-quality open space which features more than eight miles of nature trails. Rudolphi Woods is enjoyed year-round for hiking, running, cross-country skiing, and more.
- The entire trail runs along Dowagiac Creek, which has new and improved fishing opportunities in recent years.
- Both trailhead parks creatively use outcropping stones to enable swimming and fishing access where that previously was not possible.
- One of the trailheads, Schuur Park, features a natural playground for children.

Target groups/beneficiaries:

- Area residents looking for easy ways to get closer to nature and improve their health through walking and hiking.
- Locals interested in fishing, bird-watching, and other activities tied to nature.
- Local families who want wading and swimming opportunities without having to drive to other communities.
- Tourists who prioritize hiking, fishing, bird-watching, and other items tied to the
 natural resources the Elks Trail System Project highlights. Multiple owners of
 short-term rentals in our area have told the City that these items come up
 regularly when out-of-town guests make booking inquiries.

Major obstacles and problems overcome:

- This project required negotiating for and securing an easement from the Elks Lodge #889, a private enterprise.
- This project was not accounted for in the City's general fund. In order to bring it
 to life, it needed to be primarily grant-funded. Even with the best partners,
 identifying and securing grant sources can always be challenging.

- Even with multiple cost-savings measures in place, the Elks Trail System Project
 was expensive. Based on the way Michigan Department of Natural Resources
 Trust Fund grants work, we tried to strategically break up the grant requests into
 two parts in order to secure adequate funding.
- The City's applications for grant funds were rejected. Rather than just moving on, the City rethought its approach to trail construction through the easement which resulted in a natural pathway instead of a stone trail, enhancing the natural features.

History of relationships between parties involved:

 The City of Dowagiac has applied for and received multiple grants from the Michigan Department of Natural Resources Trust Fund in the past. In that time, we've learned a lot about our mutual objectives and the best way to collaborate for the greater good of the community.

How did the local governmental units work together to accomplish objectives?

- The Michigan Department of Natural Resources Trust Fund clearly has some very specific guidelines in order to access its grant resources. The City worked hand-in-hand with them to develop a plan that enabled our vision to come to life while working within their guidelines.
- All parties were open to creativity in developing the plan to ensure that the final product was a win-win.
- In every conversation about the Elks Trail System Project, each entity made the benefits to the public our #1 priority.

Funding sources and amounts:

Michigan DNR Trust Fund

Schuur Park: \$300,000Burling Park: \$300,000Acquisition: \$30,000

o Total: \$630,000

Dowagiac City General Fund

o Schuur Park: \$125,000

o Burling Park: \$250,000

Trail construction: \$45,000Acquisition: \$15,000

o Total: \$435,000

• Total project cost: \$1,065,000

Total estimated cost savings:

\$850,000: This number is based on the City reworking its plans after being denied grant funding by the ith the Michigan Department of Natural Resources Trust Fund's. The City worked creatively to change scope and execution to avoid delay in opening the trail. By doing so, we were able to significantly reduce trail construction costs. One such realized cost savings was through the use wood chips generated from the City's brush collection program for the base material of the trail.

ELKS TRAIL- 0.5 MILE

The Elks Trail is located along the Dowagiac Creek and connects Burling Park and Schuur Park. The trail is a wood-chipped path that traverses the floodplain and some wetlands. Most of the trail is flat and easy to traverse with the exception of a few areas that remain muddy and saturated for the majority of the year.

While this trail is connected to two highly accessible parks, the trail itself may be difficult to navigate for someone with a mobility

DESCRIPTION OF PROGRAM/PROJECT:

MICHIGAN ADVANCED RESEARCH & TECHNOLOGY (SMART) PARK IS TO SERVE AS A CENTER FOR TECHNOLOGICAL ADVANCEMENTS THANKS TO ITS ROBUST INFRASTRUCTURE AND FOCUS ON GREEN ENERGY.

IN 2016, MIDWEST ENERGY AND COMMUNICATIONS (MEC) COMPLETED THE ACQUISITION OF 500 ACRES FROM THE EDWARD LOWE FOUNDATION AT THE INTERSECTION OF DECATUR ROAD AND M-60. ED LOWE HAD ORIGINALLY PURCHASED THE PROPERTY TO FULFILL HIS VISION OF CREATING AN INDUSTRIAL PARK TO SUPPORT LOCAL BUSINESSES AND THE AREA'S ECONOMY. THE INTENT AT THE TIME WAS TO BUILD A NEW HEADQUARTERS FOR MEC AS IT EXPANDED THE ROLLOUT OF FIBER THROUGHOUT ITS SERVICE AREA AND LEASE THE BALANCE OF THE LAND FOR FARMING COMMODITY CROPS SUCH AS CORN AND

SOYBEANS. ONCE THE INITIAL 70 ACRES OF PROPERTY WAS DEVELOPED FOR MEC'S NEW HEADQUARTERS, COMMUNITY LEADERS WERE ENGAGED TO SEE IF A BROADER OPPORTUNITY WAS AVAILABLE, ONE THAT ALIGNED WITH ED LOWE'S ORIGINAL VISION FOR THE PROPERTY WHEN HE PURCHASED IT.

RURAL COMMUNITIES SUCH AS THOSE IN THE CASSOPOLIS AREA AS WELL THROUGHOUT SOUTHWEST MICHIGAN HAVE SERVED AS A CRITICAL DRIVER OF OUR NATION'S ECONOMY SINCE ITS FOUNDING. HOWEVER, THE RELEVANCE OF RURAL AMERICA HAS BEEN QUESTIONED MORE AS OF LATE GIVEN THAT 86% OF THE COUNTRY'S POPULATION LIVES IN URBANIZED AREAS. AND, WHILE RURAL AMERICA MAKES UP JUST 14% OF THE OF THE COUNTRY'S POPULATION, IT REPRESENTS THREE QUARTERS OF THIS COUNTRY'S LAND AREA AND MAINTAINS AN IMPORTANCE TO ALL AMERICANS AS ITS PRIMARY SOURCE FOR INEXPENSIVE AND SAFE FOOD, AFFORDABLE ENERGY, CLEAN DRINKING WATER AND ACCESSIBLE OUTDOOR RECREATION.

SMART Park sets a new bar for mixed use development within vibrant, sustainable rural communities. Users of all kinds enter the park through a beautiful boulevard entrance leading to a diverse set of planned developments, including: 179 acres of industrial space divided amongst 10 sites, 37 acres of commercial property (retail or mixed use with residential and community center), 14 acres of common shared green space, and 9 acres of solar power.

THE SITE WAS LAID OUT TO FACILITATE THE CONNECTION OF A RAIL SPUR TO THE PLANNED INDUSTRIAL SITES WHILE MAINTAINING MULTI-MODAL CONNECTIONS THROUGHOUT THE PARK FOR PEDESTRIANS, BICYCLISTS, AUTOMOBILES, AND TRAINS. CONCEPTUAL PLANS FOR A TRAILHEAD THAT WILL CONNECT THE EXISTING VILLAGE SIDEWALK SYSTEM WITH MULTIPLE PARKS IN THE COMMUNITY ARE UNDERWAY.

GOALS AND OBJECTIVES OF PROGRAM:

THE SMART PARK PROJECT HAD THREE OVERARCHING GOALS WHICH INCLUDED:

- 1. INCREASE AND DIVERSIFY THE LOCAL ECONOMY BY DEVELOPING A TECHNOLOGY AND INDUSTRY PARK ATTRACTING A DIVERSE MIX OF TECHNOLOGY, ADVANCED MANUFACTURING, LOGISTICS, AGRISCIENCE, ADDED VALUE AGRICULTURE AND FOOD GRADE MANUFACTURING. THESE INVESTMENTS WOULD SUBSEQUENTLY LEAD TO NEW JOBS FOR AREA RESIDENTS AND NEW TAX BASE WHICH THE COMMUNITY COULD INVEST TO CREATE A FOUNDATION OF RESILIENCY AND SUSTAINABILITY.
- 2. USE SUSTAINABLE DESIGN APPROACH TO CREATE AN INDUSTRIAL PARK THAT WAS CONSIDERATE OF THE AREA NATURAL RESOURCES AND SURROUNDINGS
- 3. TO CREATE A CAMPUS THAT LEVERAGES MEC'S TECHNOLOGY AND ENERGY STRENGTHS WHILE AT THE SAME TIME CELEBRATING THE COMMUNITY'S CHARACTER AND STRONG HISTORY.

DISTINCTIVE FEATURES:

SMART Park provides a base for new economic development in a small rural community, while also bringing increased and improved dining, shopping and recreational experiences for residents and visitors alike. The buildout of the park was done in a manner to accommodate users needing anything from a few acres to larger tracts of land such as the Hydro development which recently began operations in the Park.

 $\label{lem:https://www.wndu.com/video/2023/11/16/hydro-opens-new-aluminum-recycling-plant-cassopolis/$

The Park's rail makes the rural site viable to both national and international manufacturers, while comprehensive design approach of the Park provides pedestrian and bicyclist connectivity for both local and regional users of trails along M-60 that will cross through the Park. This focus on multimodal transportation stimulates Park participation across a diverse population of users.

In Keeping with the project team's focus on environmental stewardship and green initiatives, SMART Park was developed using sustainable design practices. Storm water management and site planning was guided by Low Impact Development principles, which aim to naturally control storm water run-off from impervious surfaces through appropriate landscaping, bioswales and on-site retention, increasing and improving the filtration of storm water. The final design minimizes the impacts of run-off through an innovative stormwater management system that serves the entire park versus each parcel needed to create its own stormwater management solution.

TARGET GROUPS/BENEFICIARIES:

THERE WERE THREE MAIN GROUPS IDENTIFIED AS BENEFICIARIES OF SMART PARK INCLUDING:

- LOCAL GOVERNMENTAL UNITS THAT WOULD BENEFIT FROM THE INCREASED TAX BASE GENERATED BY THE PARK.
- AREA RESIDENTS THAT ARE BENEFITING FROM THE NEW JOBS BEING CREATED IN SMART Park.
- LOCAL BUSINESSES THAT ARE PROVIDING GOODS AND SERVICES TO THE CONTRACTORS BUILDING THE PARK AS WELL AS THE EMPLOYEES OF THE NEW BUSINESSES LOCATING IN THE PARK.

MAJOR OBSTACLES AND PROBLEMS OVERCOME:

THERE WERE NUMEROUS ISSUES WHICH NEEDED TO BE ADDRESSED BY BOTH PARTIES FOR THE PROJECT TO HAPPEN. SMART PARK STRADDLED LAND WITHIN BOTH THE VILLAGE OF CASSOPOLIS AND PENN TOWNSHIP MEANING IT WAS SERVED BY DIFFERENT UTILITY PROVIDERS DEPENDING ON WHERE ON THE SITE ONE STOOD AS WELL AS DIFFERENT PLANNING AND ZONING STANDARDS AND REQUIREMENTS DEPENDING ON WHERE ONE WAS LOOKING TO DEVELOP A PARCEL WITHIN THE PARK. TO ATTRACT THE TYPES OF USERS AND INVESTMENT DESIRED FOR THE PARK, THE VILLAGE AND TOWNSHIP NEEDED TO WORK TOGETHER TO CREATE UNIFORM CONDITIONS NO MATTER WHERE A COMPANY OR SITE SELECTOR WAS LOOKING WITHIN SMART PARK.

HISTORY OF RELATIONSHIPS BETWEEN PARTIES INVOLVED:

THE PARTIES SHARE A COMMON BORDER AND PARTNER IN AREAS TO PROVIDE SERVICES TO LOCAL RESIDENTS INCLUDING THROUGH THE CENTRAL CASS INTERLOCAL FIRE DEPARTMENT AND THE CASSOPOLIS AREA UTILITY AUTHORITY; HOWEVER, SOMETHING OF THE SIZE AND IMPACT OF SMART PARK REQUIRED A NEW LEVEL OF COOPERATION AND PARTNERSHIP TO ENSURE THE PROJECT'S SUCCESS.

HOW DID THE LOCAL GOVERNMENTAL UNITS WORK TOGETHER TO ACCOMPLISH OBJECTIVES?

THE VILLAGE OF CASSOPOLIS AND PENN TOWNSHIP CAME TOGETHER TO ESTABLISH A CONTRACTED CONDITIONAL LAND USE TRANSFER UNDER PUBLIC ACT 425. UNDER THE AGREEMENT, PLANNING AND ZONING FOR THE PARK WOULD BE UNDER THE VILLAGE OF CASSOPOLIS AND UTILITY SERVICES WERE SPLIT BETWEEN THE TWO ENTITIES WITH THE VILLAGE OF CASSOPOLIS PROVIDING SANITARY SEWER SERVICE AND PENN TOWNSHIP PROVIDING WATER SERVICE TO THE PARK. BY BRINGING CONSISTENCY TO THE OPERATIONS OF THE PARK, THE DEVELOPMENT WAS MUCH MORE ATTRACTIVE TO BUSINESSES AND SITE SELECTORS CONSIDERING SMART PARK. THIS IS UNDERSCORED BY THE AMOUNT OF LAND IN THE PARK CURRENTLY PURCHASED OR UNDER OPTION BY BUSINESSES PLANNING TO BUILD FACILITIES THERE.

FU.	NDING SOURCES	AMOUNT

3.	MIDWEST ENERGY AND COMMUNICATIONS	\$7,503,000
4.	U.S. DEPARTMENT OF AGRICULTURE - RDBG	\$76,000
	TOTAL:	\$15,576,000

NOT APPLICABLE AS THE PROJECT WAS FOCUSED ON CREATING TAX BASE AND ECONOMIC OPPORTUNITY FOR AREA RESIDENTS MORE SO THAN CREATING COST SAVINGS.
