## Being blue on the bluff

Photo by Don Campbell / HP staff 14 min ago

Ann St. Amand, owner of PhycoTech Inc., shows how pollutants enter the water system using a watershed model with sisters Ava Rommel, 11, center and Grace Rommel, 12, of St. Joseph, on Saturday during "Keep It Blue" held along the bluff in St. Joseph. The event, held in partnership with the St. Joseph Public Works Department, Sarett Nature Center and PhycoTech Inc., educates residents on what they can do to protect water resources.
