Farming for the Future

November 17, 2010

Van Buren Conference Center

For more information on this and other upcoming events, please visit www.vanburencd.org

This Nonpoint Source Pollution Control project has been funded wholly through the Michigan Nonpoint Source Program by the United States Environmental Protection Agency under assistance agreement C9975474-10 to the Van Buren Conservation District for the Paw Paw & Black Rivers Wetland Protection & Restoration project. The contents of the document do not necessarily reflect the views and policies of the EPA, nor does the mention of trade names or commercial products constitute endorsement or recommendation for use.

Van Buren Conservation District

1035 E. Michigan Ave.
Paw Paw, MI 49079
Phone: (269) 657-4030 x 5
Fax: (269) 657-4925
www.VanBurenCD.org

The brochure cover features a blue background with a map of Michigan in the top left corner, colored in shades of green and yellow. Below the map is the Van Buren Conservation District logo. The title 'TECHNIQUES OF WETLAND RESTORATION' is written in large, white, bold, sans-serif capital letters. Below the title is the subtitle 'A Workshop for Land Owners and Land Managers' in a smaller, white, italicized serif font. At the bottom of the cover, the date 'OCTOBER 21, 2010' and the location 'VAN BUREN CONFERENCE CENTER' are printed in white, bold, sans-serif capital letters. The bottom half of the cover is decorated with a close-up photograph of water droplets on a light blue surface.

Techniques of Wetland Restoration

Thursday, October 21, 2010

6:30-9:00 p.m.

FREE and open to the public
Van Buren Conference Center,
490 S. Paw Paw St., Lawrence, MI

Wetlands are crucial for water quality protection and habitat, but many of our original wetlands have been converted for agriculture or development. This workshop will provide land owners and land managers with the details you will need to oversee a successful wetland restoration project, such as

- determining a suitable site,
- restoring hydrologic conditions, and
- establishing suitable vegetation

Our Wetland Project

The Van Buren Conservation District has been awarded a three-year \$806,000 grant from the Michigan Department of Natural Resources and Environment through the U.S. EPA Federal Clean Water Act. The focus of the project is wetland protection and restoration. For an overview of the entire project which began October 2009 and runs through October 2012, please visit www.VanBurenCD.org.

Speakers will include:

- *Jim Hazelman, US Fish and Wildlife Service
- *Frank Velasquez, Natural Resources Conservation Service
- *Jared Foster, Van Buren Conservation District
- *Erin Fuller, Van Buren Conservation District
- *Matt Meersman, Van Buren Conservation District

Van Buren Conference Center
